JOURNAL OF AUTOMATION AND INFORMATION SCIENCES

(formerly Soviet Journal of Automation and Information Sciences)

CONTENTS FOR 1992

Number 1

Page

PROBLEMS OF CONTROLLED SYSTEM DYNAMICS

PERVOZVANSKIY, A.A. and AL.A. PERVOZVANSKIY: Some Estimates of the Parametric Robustness of Linear Systems 1

ZAGARIY, G.I., N.N. TSAGURIYA, and A.M. SHUBLADZE: Synthesizing Control Systems of Maximal and of Specified Degrees of Stability Part 1. Using Dynamic Filters in Problems of Synthesizing a Law of Control of Finite-Dimensional Objects 7

MOLECULAR AUTOMATICS

KLIMENKO, YU.A, YU.I. SAMOYLENKO, and O.A. KHOROZOV: A Model of a Controlled Microlevel Logic Element Part 1 14

STEPASHKO, V.S.: Structural Identification of Predictive Models under Conditions of a Planned Experiment 24

MIROSHNICHENKO, L.V. and A.P. SARYCHEV: A Scheme of Sliding Examination for Seeking the Optimal Set of Features in a Problem of Discriminant Analysis 33

MATHEMATICAL MODELING AND INVESTIGATION OF COMPLEX CONTROLLED SYSTEMS

PAVLOV, V.V.: A System Model of Interconnected Socioeconomic Phenomena 42

CONTROL IN PHYSICAL OBJECTS

ZELYK, YA.I., M.M. LYCHAK, M.A. GNATYUK, A.I. BORISENKO, V.F. TRUDOLYUBOV, and G.G. AKSENOVA: An Automated System for Measuring the Characteristics of an Acoustic Field 51

QUALITATIVE METHODS IN THE THEORY OF CONTROLLABLE SYSTEMS

PATLANZHOGLU, O.M. and A.A. CHIKRIY: A Generalized Control Example of L.S. Pontryagin 56

METHODS OF CONTROL AND ESTIMATION UNDER INDETERMINACY CONDITIONS

VASIL'YEV, V.I. and K.A. BEKMURATOV: Synthesizing Properties from a Training Sample in Problems of Training Pattern Recognition 71

NUMERICAL MODELLING AND CONTROL METHODS

STEPANENKO, V.N.: Matrix Algorithms for the Fast Fourier Transformation 78
